The attending physician was available and continues to provide supervision for the patients on an ongoing basis.

Pt. reports general status is stable. He denies inappropriate urges/compulsion. Pt is a bit less fatigued by PA position/travel. He is beginning to focus on dating in the future. This is supported. Pt. is relieved that the proposed sexual offender law has a grandfather clause. He further evaluated his anger & wife who continues to deny court ordered visitation (supervised) & separation. Pt. discussed how he has carried repressed anger for his dominant mother to marriage & a wife having similar qualities. Pt. continues to receive his triggers for abusing i.e. chronic inadequacy, isolation from wife, no sexual relationship & wife, anger, depression & dependence. No major problems were presented. Will continue to follow case.
